Real SAP Integration Company

EXTREME CONSULTING

Not another implementer. Your integrator.

The only integration company in the Israeli SAP market.

We do not compete for delivery work. We guide your journey, aligning strategy, people and technology so the right project is delivered by the right partners.

Built by people who came from SAP: deep roadmap knowledge, real alternatives and a focus on your ROI.

Two sides. One shared route to success.

FOR CLIENTS

Decisions before investment

S/4HANA or stay on ECC: a clear view of cost, risk and ROI.

An independent partner

Strategy, tenders and vendor selection without a delivery sales agenda.

Capability that stays with you

Client-side leadership and a COE that sustains value after go-live.

FOR SUPPLIERS

Clearer scope

Sharper requirements, priorities and expectations from the outset.

A better-prepared client

A professional counterpart who aligns decisions, risks and dependencies.

A partner, not a competitor

You bring delivery expertise; we connect it to the client and the right plan.

From the first decision to business value.

STRATEGY	CHOOSE A PATH	SELECT VENDORS	LEAD & BUILD COE	INNOVATION
Needs, options & ROI	ECC or S/4HANA	Tender & alignment	Client-side ownership	Solutions & value

ECC path: Rimini Street support and InsightZAP innovation. S/4HANA path: tender, vendor selection and client-side guidance.

WHAT WE BRING

- Strategic guidance
- Project accompaniment
- Client-side project management
- Build your Center of Excellence (COE)
- Focused specialist consulting
- Resources selected for your needs

Complexity. Precision. One team.

In extreme sports and SAP, success starts with coordination.
